Transform CE from a Cost Center into a "**Cost Avoidance Center**"

Find out what your total spend is and how to bend the costs down.

DESCO has facilitated an average of **40.5%** in **cost savings** for healthcare facilities by improving vendor consolidation and increasing medical equipment contract and capital acquisition efficiencies.

A proactive approach with sustainability in mind **ensures the safety** of medical equipment and focuses on patient care.

By realigning staff, establishing service delivery expectations and reducing outside contract spend, DESCO produced a **cost savings** of **30%** while improving up-time to an independent radiology practice with seven locations.

For expert consultation that will determine the best solution for your hospital.

Contact DESCO for assistance.
